

The Ways of Watercolor Supply List

- [Paint](#)

The most important supply!

- [Brushes](#)

Feel free to bring any other brushes you have! I chose this pack for the variety of brush types and sizes.

- [Paper](#)

Arches Watercolor Paper Pad, 140 pound, Cold Press, 9"x12". This is the minimum paper needed for class. I suggest if you plan experimenting outside of class to buy an additional notebook or a more affordable paper like a canson mixed media paper.

- [Drawing Pencils](#)
- [Eraser](#)

Drawing will be a large part of our water color process. As long as you have at least one H series pencil and one HB pencil as well as an eraser.

- [Micron Pens](#)

Inking over our work will also be a major part of our class. I suggest these pens because there are various sizes to experiment with and black ink is so versatile, however, feel free to bring in whatever you have as long as there is at least one black pen.

Additional required supplies

- Masking tape
- Paint cup
